

THIRD GENERATION KL1000

Introducing the KitLock KL1000 G3 cabinet lock. Key override and front battery change capabilities provide ease of use and peace of mind. The updated chrome effect back panel and handle finishes reflect their surroundings giving the lock a slimmer, more subtle aesthetic.

Sharing the same fittings & fixings as the KL1000 Classic, this lock is easily retrofitted, ideal for upgrading existing installations with increased flexibility and convenience for both guests and staff.

- Key Override
- Private and Public Functions
- Up to 20 User Codes
- Multi-language instructions
- Auto-unlock after a set time
- Slam latch accessory available
- Black Chrome / Silver Chrome finishes
- Two year guarantee*

FEATURES

Private Function

This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Public Function

This is the default function and is already pre-programmed in new locks. In this function the KitLock operates with a single User Code. The user enters a personal four digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short term, multiple occupancy applications, e.g. hot desking in an office or a locker in a sports club.

Key Override

Allows key holders to access the locker in the event of a forgotten code or an emergency. Override key available separately.

Front Battery Change

The KL1000 G3 battery compartment can be accessed via the front of the lock, eliminating the need for battery override. Entering a valid code and turning the handle reveals a security screw which, once removed, allows the cover to slide up and batteries to be replaced.

24hr Auto-Unlock Countdown Timer

When operating in Public Function, the KL1000 G3 can be programmed to auto-unlock between 1 and 24 hours after locking**, saving valuable locker management time.

20 User Codes

The KL1000 G3 offers up to 20 unique 4 digit User Codes when operating in Private Function, thus allowing a single cabinet to be accessed by multiple users.

Easy Retrofit

The KL1000 G3 shares the same fittings and fixings as all KL1000 KitLocks, therefore existing installations can be easily upgraded and retrofitted in a matter of minutes.

TECHNICAL SPECIFICATIONS

FEATURE	DESCRIPTION
Code Length	8 digit Master and Sub-Master Code, 6 digit Technician Code, 4 digit User Code
