

THIRD GENERATION NETCODE

The KL1000 G3 NetCode utilizes technology that allows generation of date and time-sensitive, temporary access codes: NetCodes.

The updated chrome effect back panel and handle finishes reflect their surroundings giving the lock a slimmer, more subtle aesthetic. The KL1000 G3 NetCode offers key override and front battery change capabilities providing ease of use and peace of mind. Sharing the same fittings & fixings as the KL1000 Classic, this lock is easily retrofitted, ideal for upgrading existing installations with increased flexibility and convenience for both guests and staff.

Easy to install
or retrofit

Private and
Public Functions

FEATURES

- Date/time specific code generation
- Send generated codes via email or SMS**
- No WiFi connection required
- Easy install or retrofit
- Silver Chrome finish
- Master, Sub-Master, User and Technician Codes
- Up to 20 User Codes
- IP54 Rated when used with gasket (available separately)
- Two year guarantee*
- All parts / fixings / templates included

FUNCTIONS

Three Modes of Operation

The KL1000 G3 NetCode retains the standard Public and Private Functions.

NetCode

This function allows temporary access. Create date and time-sensitive codes via the Codelocks Connect Portal or your own application with our simple Application Programming Interface (API).

Private Function

This function is used where the same code will be repeatedly used. Choose a single four digit User Code to use multiple times. Ideal for use where the lock is allocated to a single person for a long period of time.

Public Function (default)

This function is used for short-term, multiple occupancy applications. Enter a four digit User Code to lock the locker, the same code is used to unlock. The lock remains open, ready for a new user and a new code.

TYPES OF NETCODE

Four types of NetCode are available:

- Short term multi-use codes with durations from 1 to 12 hours and 1 to 7 days
- Short term single-use codes with durations from 1 to 12 hours and 1 to 7 days
- Medium term codes with durations from 1 to 21 days
- Long term codes that work for periods of up to 1 year

ADDITIONAL NETCODE FEATURES

Block Previous NetCode

This feature automatically blocks the last used NetCode when a new NetCode is entered.

Mode Restrictions

Choose which types of NetCode to support. This is a useful feature if the number of potentially available NetCodes needs to be reduced.

Block Specific NetCode

Block a specific NetCode directly on the lock using either the Master Code or another valid NetCode.

Personal User Code

Allow a NetCode user to create a personal 4 digit number that retains the same validity period as their originally allocated NetCode.

API

Codelocks provide a simple Application Programming Interface (API) to enable customers to generate NetCodes via their own applications. All standard NetCode types can be created via the API. Please contact Codelocks to discuss these options.

All NetCode locks are registered via the online Codelocks Connect Portal. Once registered, NetCodes can be generated and shared via email and SMS*. A built-in history provides an audit of all NetCodes created for each lock.

Language

Choose from English and German. Language pack available for translations into other languages.

Associate Users

Add additional users to your account. These users can generate NetCodes for your locks.

TECHNICAL SPECIFICATIONS

FEATURE	DESCRIPTION
Codes	Master, Sub-Master, User and Technician Codes
Operations	Up to 100,000 operations per 2 x AAA batteries
Battery Override	A 9 volt PP3 battery can be placed against external contacts
Low Battery Warning	Red LED will flash on opening to indicate low battery
Functions	Private, Public and NetCode
IP54 Rated	When used with gasket (available separately) IP55 available for special order
Cam	Cranked cam supplied (flat cam available separately)
Door Thickness	Ready to fit doors up to 19mm ($\frac{3}{4}$ ")
Spindle	Spindles to fit sheet metal doors and door thicknesses up to 25mm (1") available separately
Memory	Non-volatile memory will be retained
Fitting	Easy to install and program
Dimensions	136mm ($5\frac{3}{8}$ ") H x 28mm ($1\frac{1}{16}$ ") D x 33mm ($1\frac{3}{16}$ ") W
Slam Latch	Retrofit to existing KL1000 G3 NetCode locks or purchase for new locks (available separately)

Note: Not suitable for poolside lockers.
